

# DILUENTE PULIPAR W

**Water-based liquid detergent for removing of fresh adhesive from pre-finished wooden floor**

## Description

DILUENTE PULIPAR W is a odorless water-based liquid detergent and it is used for pre-finished wooden floor dirty with single or two-component adhesives after laying. DILUENTE PULIPAR W is effective on adhesives partially hardened for maximum 6 hours (at +20°C, 60% RH). In any case, it is important to intervene before complete adhesive hardening.

## Characteristics

Mixture ratio	single-component
Appearance	straw-yellow liquid
Odour	odorless
Application temperature	+10°C ÷ +25°C
Thinning (if necessary)	ready to use
Application	cloth
Coverage	20-30 g/m <sup>2</sup>
Packaging	1 L
Storage stability	1 year <sup>(1)</sup>
<small>1 in original sealed containers at temperatures between +10°C and +25°C</small>	

## How to use

Apply DILUENTE PULIPAR W directly on the glue. Let to act it for a few seconds and rub slightly with a cotton cloth keeping a rotary motion.

In the case of particularly resistant adhesive it is advisable to extend the contact time of adhesive/DILUENTE PULIPAR W, trying to avoid many mechanical actions, in fact the excessive scrubbing might alter the opacity of the pre-finished wooden floor.

The possible halos can be removed using a clean cloth dampened with DILUENTE PULIPAR W.

Sponge any excess with a dry cloth. Make always a preliminary test to verify the resistance of the finish to DILUENTE PULIPAR W.
