TO **50%** OF RECYCLED POLYMERS

of material from  
post-consumption  
waste

## MULTIUSE SANITIZING

### VELUREX® MULTI GEN *Multiuse cleaner sanitizing*

Cleaning solution for all hard surfaces. VELUREX® Multi Gen is an universal multiuse **hydro alcoholic based cleaner** which, thanks to its intensive action, allows a deep cleaning of all treated surfaces. **It contains hydrogen peroxide and benzalkonium chloride.** Suitable for ordinary cleaning of rooms, working stations and common leisure areas which need to be kept clean and healthy.

#### How to use

**750 ml packaging:** Spray the product all over the surface keeping a distance of 20/25 cm and let it work for few minutes then wipe with a damp cloth. Don't spray directly over aluminum and zinc and wipe with a dry cloth. VELUREX® Multi Gen

can be also poured in a bucket for cleaning and sanitization of floors with a mop, dilute 1 part of VELUREX® Multi Gen with 3 parts of water.

**5L or 10L packaging:** when using a sprayer, atomizer or wash and dry machine, dilute 1 liter of VELUREX® Multi Gen in 5 liters of water. When using the product by mop and for the sanitization of any kind of wooden floors, dilute 1 part of VELUREX® Multi Gen with 3 parts of water. For wooden floors rinse with specific VELUREX® or LIOS cleaner.

For any further use out of those mentioned, run a preliminary test. Avoid the contact with sensitive and delicate textiles.

## MULTIUSE ANTISTATIC

### VELUREX® MULTI STAR

*Multiuse antistatic intensive cleaner*

VELUREX® Multi Star is a hard-surfaces cleaner, recommended to degrease and quickly clean different types of surfaces leaving them glossy and free from halos. It contains an antistatic emulsion enabling it to avoid the formation and accumulation of dust and allergens. **It is ideal for cleaning glass, mirrors, chandeliers, doors and windows, plasticised materials, chromed and ceramics surfaces, car interiors, etc.**

**How to use:** spray the product by holding the bottle at 20-25 cm from the surfaces and wipe with a dry cloth. For steel surfaces rinsing is recommended. In case of more persistent dirt, leave on few minutes before rinsing. For uses other than those mentioned, make a preliminary test first.
